Career Objective

Enthusiastic and detail-oriented backend developer with hands-on experience in Laravel, Inertia.js, Vue.js, and MySQL. Eager to learn new technologies, contribute to impactful projects, and grow into a skilled backend engineer through practical, real-world experience.

Technical Skills

- Backend: Laravel (PHP), RESTful API, MVC Architecture
- Frontend Integration: Vue.js, Inertia.js, Blade Templates
- Database: MySQL, Relational Database Design, Query Optimization
- Version Control: Git, GitHub
- Others: Authentication, Role-Based Access Control, File Uploads, Search & Filtering
- Tools: Composer, XAMPP, Postman

Projects

Inventory Management System

- Stock tracking, category-wise product management, CRUD operations, and image upload.
- Integrated Laravel backend with Vue.js using Inertia.js.

Event Management Application

- Admin & user panels with role-based access control.
- Implemented authentication, file uploads, and event search features.

Education

B.Sc. in Physics, Begum Rokeya University, Rangpur
