## Objective

Full-stack web developer with practical experience in PHP, OOP, Laravel, Vue.js, and other modern technologies like JavaScript, jQuery, AJAX, Bootstrap, Tailwind CSS, and relational databases such as MySQL, PostgreSQL, and SQLite. I've also worked with international clients through platforms like Fiverr and Upwork, where I successfully delivered polished web solutions while managing deadlines and client expectations. With a strong problem-solving mindset, adaptability, and a passion for clean, maintainable code, I'm now seeking a full-time opportunity to grow and contribute within a professional development team.

## Skills

Laravel, PHP, Object-oriented programming (OOP), RESTful APIs, Vue.js, JavaScript, jQuery, AJAX, JSON, Bootstrap, Tailwind, HTML, CSS, MySQL, PostgreSQL, SQLite, Git, GitHub, Postman, cPanel, VS Code

## Experience

### Web Developer

SoftMind Technologies (On-site)

Feb 2024 – May 2025

Worked on web applications using Laravel, building custom dashboards, and implementing role-based login systems. Managed complex Eloquent relationships and integrated third-party APIs for dynamic data exchange. Focused on route organization, controller logic, and database query optimization. Collaborated with developers through Git and regular code reviews to ensure smooth progress and clean, maintainable code.

### Front-End Developer

Freelance (Upwork & Fiverr)

Apr 2023 – Present

Built responsive, user-focused interfaces using HTML, CSS, Bootstrap, Tailwind, and JavaScript for international clients. Translated Figma designs into pixel-perfect layouts, fixed layout and browser issues, and optimized frontend performance. Collaborated with backend teams to sync API-driven content and ensured smooth UX through testing and client feedback.

## Achievements

### ✓ UI Delivery & Responsiveness

Delivered pixel-perfect, mobile-responsive UIs for 10+ client projects with real-time feedback integration.

### 🔧 Reusable Backend Components

Developed reusable Laravel modules that reduced project setup time by 30% in repeat client projects.

### 👥 Team Collaboration & Workflow

Gained hands-on experience collaborating with teams and aligning work through feedback.

## Certifications

### PHP, OOP, Laravel

Udemy (2023 - 2024)

### Responsive Web Design

CodersTrust (2022 - 2023)

### Basic Web Design

Raw Tech Society (2021)

## Education

B.Sc in Chemistry

Joypurhat Govt. College (2017 - 2021)

## Interests

### 📖 Learning New Frameworks / Tools

Enjoy learning frameworks and tools to stay updated, improve efficiency.

### 🔧 Problem Solving (through coding challenges)

I solve coding challenges to think logically and improve problem-solving.

### 🚶 Travelling

I enjoy travelling as it refreshes my mind and inspires creativity.
